CONCRETE AND RESIN-LIKE EFFECT, FOR DESIGN PROJECTS

SMOOTH REFLECTIONS

A surprising honed porcelain ceramic surface inspired by glossy brushed resin, evoking its elegant brightness as well as providing a soft and pleasant feel to the touch. The honed finish reproduces a unique effect of light reflection, allowing the creation of minor irregularities on the surface akin to the look of resin and concrete spread by hand.

MORBIDI RIFLESSI

Una sorprendente superficie in gres porcellanato lappato si ispira alla resina spatolata lucida, evocandone la raffinata luminosità insieme a una mano morbida e gradevole al tatto. La finitura lappata riproduce un singolare effetto di riflessione della luce, lasciando scorgere lievi irregolarità superficiali legate alla stesura a mano di resina e cemento.

HONED SURFACE

DOUX REFLETS

Une surface surprenante en grès cérame adouci s'inspire à la résine brillante étalé avec une spatule, en évoquant l'élégante luminosité et un touche doux et agréable. La finition adoucie reproduit un effet singulier de réflexion de la lumière, en laissant apparaître de légères irrégularités à la surface liées à l'application manuelle de la résine et du ciment.

ZARTE REFLEKTIONEN

Eine überraschende Oberfläche aus geläpitem Feinsteinzeug, inspiriert durch glänzende Harzspachtelung, die für eleganten Glanz sorgt und sich weich und angenehm anfühlt. Die geläppte Oberfläche sorgt für eine einzigartige Wirkung der Lichtreflexion, so dass die Unregelmäßigkeiten des von Hand aufgetragenen Harz und Zements auf der Oberfläche leicht wahrzunehmen sind.

SUAVES REFLEJOS

Una sorprendente superficie en gres porcelánico lapeado se inspira en la resina espatulada brillante, evocando su refinada luminosidad junto a una mano suave y agradable al tacto. El acabado lapeado reproduce un particular efecto de reflexión de la luz, dejando entrever leves irregularidad superficiales ligadas a la aplicación manual de resina y cemento.

МЯГКИЕ ОТРАЖЕНИЯ

Изумительная керамогранитная поверхность имитирует разглаженную шпателем смолу – выразительную, лучистую, мягкую и приятную на ощупь. Лаппатированная поверхность с точностью воссоздает приятный блек и легкие неровности, остающиеся после нанесения смол вручную.

URBAN FEELING

Advanced porcelain tile surface that recalls the urban character and material of opaque brushed concrete stretched by hand. The aesthetics reproduces the nuances and the irregularities so typical of the natural material of inspiration, such as changes and unevenness of colour, flakes and granules. A light and expert microstructure surface evokes and brings to life the effect of manual application.

I CARACTÈRE MÉTROPOLITAIN

Un grès cérame évolué rappelle le caractère urbain et texturé du ciment mat étalé à la main avec une spatule. L'esthétique reproduit les nuances et les irrégularités typiques de la matière d'inspiration, comme des passages et des inhomogénéités chromatiques, des éclats et des grains. Une microstructure en surface, légère et efficiente, évoque avec réalisme l'effet de l'application manuelle.

II GROßSTÄDTISCHER CHARAKTER

Ein fortschrittliches Feinsteinzeug, das an den urbanen und materischen Charakter von mattem Zement erinnert, der von Hand aufgetragen ist. Die Ästhetik reproduziert die Nuancen und die typischen Unregelmäßigkeiten des Materials der Vorlage, wie ungleichmäßige Farben, Splitter und Granulate. Eine leichte und ausgewogene Mikrostruktur auf der Oberfläche lässt den Eindruck eines Materials, das von Hand aufgetragen wurde, äußerst realistisch erscheinen.

CARATTERE METROPOLITANO

Un gres porcellanato evoluto richiama il carattere urbano e materico del cemento spatolato opaco steso a mano. L'estetica riproduce le sfumature e le irregolarità tipiche della materia d'ispirazione, quali passaggi e disomogeneità cromatiche, scaglie e granuli. Una lieve e sapiente microstruttura superficiale evoca e rende realistico l'effetto dell'applicazione manuale.

I CARÁCTER METROPOLITANO

Un gres porcelánico evolucionado evoca el carácter urbano y material del cemento espatulado opaco aplicado a mano. El aspecto reproduce los matices y las singularidades del material de inspiración, como irregularidades y faltas de homogeneidad cromáticas, virutas y gránulos. Una leve y acertada microestructura superficial evoca con realismo al efecto de la aplicación manual.

II УРБАНИСТИЧЕСКИЙ ХАРАКТЕР

Передовой по качеству керамогранит вызывает в памяти урбанистический характер матового цемента, разглаженного шпателем вручную. Плитки воспроизводят все особенности исходного материала: цветовые нюансы, неровность фактуры, гранулы, включения. Мягкая микроструктура поверхности делает крайне реалистичным эффект ручной обработки.

WALL TILES ADDITIONAL BENEFITS

PROPRIETÀ CERAMICA
DA RIVESTIMENTO

While porcelain tiles are ideal for use on the floor thanks to their hardness and extreme durability, the light weight and workability of white body tiles make them ideal for use on walls: cuts and holes can be made quickly and easily, reducing installation time and costs.

Mentre il gres porcellanato è ideale per l'uso a pavimento, per la sua durezza e l'estrema resistenza, le caratteristiche di leggerezza e lavorabilità del rivestimento in pasta bianca lo rendono ideale per l'uso a parete: i tagli e i fori saranno eseguiti facilmente e velocemente, riducendo i tempi e i costi di posa.

Ease of installation

Facilità di lavorazione

Cuts, holes, and bevels are easily made and reduce the time it takes to lay the white body tiles.

Tagli, fori, bisellature sono facili da realizzare e rendono più veloce la posa dei rivestimenti in pasta bianca.

Extremely easy to clean

Estrema facilità di pulizia

White body ceramic tiles can be cleaned with a simple passage of hot water or neutral detergent.

I rivestimenti ceramici in pasta bianca si puliscono con un semplice passaggio di acqua calda o detergente neutro.

The LEED standard (Leadership in Energy and Environmental Design) is a rating system dedicated to the development of “green” buildings. Developed by the US Green Building Council and internationally recognised, it points out the necessary requirements to build eco-compatible projects, capable of functioning in a sustainable and autonomous way from an energy point of view, as well as having a low environmental impact throughout their entire life cycle. This system is based on the allocation of credits for each single requirement: the total amount of credits defines the obtained certification level. Also ceramic tiles can contribute to the achievement of LEED points. Ceramiche Atlas Concorde is a member of the US Green Building Council.

Elaborato dall’US Green Building Council e riconosciuto a livello internazionale, indica i requisiti per costruire edifici eco-compatibili, capaci di funzionare in maniera sostenibile ed autosufficiente a livello energetico e di avere un basso impatto sull’ambiente durante tutto il loro ciclo di vita. Il sistema si basa sull’attribuzione di crediti per ciascuno dei requisiti: dalla somma dei crediti deriva il livello di certificazione ottenuto. The Ceramics of Italy logo is an exclusive identification on ceramic products which have effectively been made in Italy by companies that are a part of the Confindustria Ceramica and who adhered to its Ethical Code. This Code, promoted and created by Confindustria Ceramica, commits all companies to communicate, clearly and with transparency, the origin of their products.

Il marchio Ceramics of Italy contrassegna esclusivamente i prodotti ceramici effettivamente realizzati in Italia da un’azienda associata a Confindustria Ceramica che ha sottoscritto il Codice Etico. Il Codice, redatto dalla stessa Confindustria Ceramica, impegna a comunicare con chiarezza l’origine dei prodotti.

The Made in Italy logo of Atlas Concorde stands for style, quality and ethics. Having firmly adhered to the Ethical Code promoted by Confindustria Ceramica, Atlas Concorde places the Made in Italy logo on all the products designed and produced in Italy, that is to say ceramic tiles, decorations and the majority of special trim tiles. Only a small amount of the latter is manufactured in Spain. Atlas Concorde products are produced using eco-friendly technologies, top quality and safe raw materials with the best working conditions guaranteed for our personnel. For these reasons, Atlas Concorde’s Made in Italy is the expression of strong values such as style, design, product quality, and respect for the environment and the people who live in it.

Il marchio Made in Italy di Atlas Concorde è sinonimo di stile, qualità ed etica. Avendo aderito con convinzione al Codice Etico di Confindustria Ceramica, Atlas Concorde appone il marchio Made in Italy su tutti i prodotti studiati, progettati e realizzati in Italia, nella fattispecie tutte le piastrelle di ceramica, le decorazioni e la maggioranza dei pezzi speciali. Solo un ristretto numero di questi ultimi è fabbricato in Spagna. I prodotti Atlas Concorde sono inoltre realizzati con tecnologie rispettose dell’ambiente, utilizzando materie prime eccellenti e sicure, garantendo le migliori condizioni di lavoro. Per queste ragioni il Made in Italy di Atlas Concorde è espressione di valori forti quali stile, design, qualità del prodotto, attenzione all’ambiente e alle persone.
